

9.

local information

Pedestrian kiosks are the transition points between vehicular traffic and pedestrians. Here, the visitor will plan for the next portion of the journey before embarking on foot to their destination.

Kiosks will feature a detailed map of Downtown Renton. The map will list destinations and provide a list of recreational opportunities. Visitors will be welcomed and encouraged to explore downtown shops, grab a bite to eat in a local restaurant, or enjoy a refreshing walk along the river.

A larger regional map will be featured on the other side. This map will provide information on regional transportation routes, mass transit, bike trails and connection to The Landing.

location

Pedestrian kiosks are located near the parking areas.
